PRESS RELEASE

Gattefossé won Gold at in-cosmetics Asia 2023, third award for Emulium® Dermolea MB.

Lyon, France - November, 22 2023

At in-cosmetics Asia, held in Bangkok, the organizers unveiled the winners of the innovation zone on November 8th. Gattefossé was once again rewarded for its new O/W emulsifier, receiving the gold medal. This triple-award-winning shield for sensitive skin creates light and sensorial textures.

Angelito Delos Reyes
General Manager at
Gattefossé Asia Pacific

"We're delighted to see that our product has been so well received by Asian customers proving that products for sensitive skin are not just trendy but a mainstream need by consumers. Changes in the environment and parents' desire to provide skin care range for their children that cater to sensitive skin are driving formulators to seek out innovative and multifunctional ingredients. Emulium® Dermolea MB is multifunctional, which makes it possible to develop a wide range of cosmetic applications suitable for all skin types and climates."

An award-winning ingredient

Launched in April 2023 at in-cosmetics global, Emulium® Dermolea MB was nominated as a finalist in the functional ingredient category of the innovation zone. After winning **best functional ingredient in Korea and silver medal in Latin America**, it is once again **on the top step of the podium!**

Personal Care Tehnical Manager at
Gattefossé Brasil, South and Central America

Amanda Pimentel

General Manager at
Gattefossé Brasil, South and Central America

"We are so proud that Emulium Dermolea® MB was awarded during in-cosmetics® Latin America! It reflects the skincare expertise we can bring to our customers and, for sure, it will help us to succeed in the region."

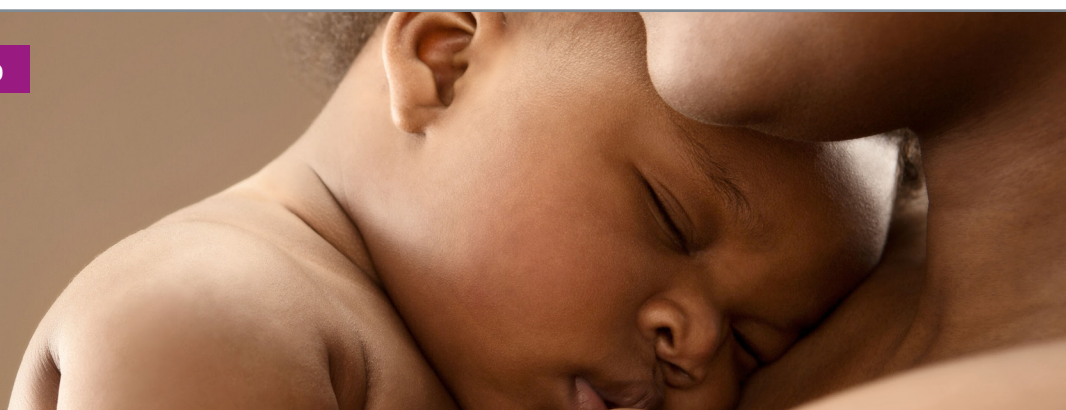

"We are excited about the positive impact Emulium® Dermolea MB, active emulsifier, is making in the beauty industry, and we look forward to continuing our journey of innovation."

Discover Emulium® Dermolea MB, sensitive skin shield

Emulium® Dermolea MB, a plant-based O/W emulsifier, **reduces skin stress and brings long-term soothing** thanks to its unique lipidic composition rich in sterols and triterpenes. Highly moisturizing and protective, it is shown to reinforce the **skin barrier function**. Used at up to 4%, this **multifunctional ingredient** is suitable for all skin types, in both humid and dry climates.
