

1. DEFINITION

DEFINITION
Medium-Chain Triglycerides Supply Chain Certificate (SCC) number: BVC-RSPO-SG004386

2. FIELD OF USE

FIELD OF USE
This ingredient must be used according to appropriate regulations
This product is a foodstuff. It is recommended for use in food supplement. It is not recommended for use in parenteral nutrition.

3. MANUFACTURING PROCESS AND COMPOSITION

MANUFACTURING PROCESS
Bulk TCM are obtained by an esterification reaction between Glycerol and Caprylic/Capric acids (C8 -C10). Gattefossé SAS purchases bulk TCM, makes filtration, packaging, control and batch release.

COMPOSITION
Triglycerides of Caprylic/Capric acids (C8 - C10)
Full Labeling (Key letters system) $A_1 \geq 75.0$; $50.0 \leq A_2 < 75.0$; $25.0 \leq B < 50.0$; $10.0 \leq C < 25.0$; $5.0 \leq D < 10.0$; $1.0 \leq E < 5.0$; $0.1 \leq F < 1.0$; $G < 0.1$
Medium-Chain Triglycerides
$A_1 \geq 75.0\%$
Other constituents (i.e. incidental ingredients)
None

4. RSPO CERTIFICATION

ROUNDTABLE ON SUSTAINABLE PALM OIL http://www.rspo.org/certification	
Product status	Gattefossé RSPO certification number
Product certified RSPO Mass Balance. More information on: www.RSPO.org	Supply Chain Certificate (SCC) number: BVC-RSPO-SG004386

Regulatory data sheet (RDS) – Pharmaceutical market

5. FOOD/NUTRACEUTICAL/DIETARY SUPPLEMENT APPLICATIONS

Medium chain triglycerides have a long history of use worldwide for use in food and dietary supplements. Medium chain triglycerides are edible fat, allowed for use both as a food and in foods added as ingredients.

Medium chain triglycerides are widely used for parenteral nutrition in individuals requiring supplemental nutrition in particular in the US and Europe. (Specific regulations may apply in case of parenteral nutrition use.)

Country	Reference	Registration number
U.S.A.	DSHEA (Dietary Supplement Health and Education Act) "Grandfathered ingredient" authorized for use in Dietary supplements	Medium chain triglyceride
JAPAN	JSFA (Japanese Standards of Food Additives)	Glycerol esters of fatty acids
EUROPE	Regulation (EC) No 178/2002 of the European Parliament and of the council of 28 January 2002 laying down the general principles and requirements of food law, establishing the European Food Safety Authority and laying down procedures in matters of food safety	Edible Fats and Oils

6. *SPECIFIC PHARMACEUTICAL REGULATIONS

REGULATORY STATUS OF THE INGREDIENT FOR BORDER-LINE APPLICATIONS AUSTRALIA (TGA) - Australian Register of Therapeutic Goods Ingredients			
Status	Ingredient Name	Use	Restrictions
Approved	Medium chain triglycerides	Available for use as an Active Ingredient in: Biologicals, Prescription Medicines Available for use as an Excipient Ingredient in: Biologicals, Devices, Export Only, Listed Medicines, Over the Counter, Prescription Medicines Not available as an Equivalent Ingredient in any application	None
AUSTRALIA: Therapeutic goods are divided into 'medicines' and 'medical devices'. Some 'medicines' are limited to prescription-only while others are available without a prescription. Non-prescription medicines may be 'complementary medicines' (i.e. vitamin, mineral, herbal, aromatherapy, and homeopathic products) or 'OTC medicines' and may be 'listed' (i.e. Sunscreens SPF4 and >4) or 'registered' in the ARTG.			

REGULATORY STATUS OF THE INGREDIENT FOR BORDER-LINE APPLICATIONS NATURAL HEALTH PRODUCTS – CANADA NHPID		
Status	NHPID name	Route of administration/ Restrictions
Approved chemical name	Medium chain triglycerides	<u>Medicinal:</u> Rationale: Classified as an NHP under Schedule 1, item 2 (an isolate) of the Natural Health Products Regulations <u>Non-medicinal:</u> Purposes: Emulsifying Agent , Filler , Fragrance Ingredient , Lubricant , Oleaginous Vehicle , Skin-Conditioning Agent - Occlusive
Under the Natural Health Products Regulations, which came into effect on January 1, 2004, natural health products (NHPs) are defined as: Probiotics; Herbal remedies; Vitamins and minerals; Homeopathic medicines; Traditional medicines such as traditional Chinese medicines; Other products like amino acids and essential fatty acids. The Natural Health Products Ingredients Database (NHPID) lists acceptable medicinal and non-medicinal ingredients used in Natural Health Products.

7. CHEMICAL REGULATIONS

CHEMICAL REGULATION			
INGREDIENT NAME	CAS #	EC #	Chemical name
Medium-Chain Triglycerides	73398-61-5 (or 85409-09-2) (or 438544-49-1)	277-452-2 (or 287-075-5) (or None)	Glycerides, mixed decanoyl and octanoyl (or Glycerides, C8-10) (or Triglycerides, Medium Chain)
EC numbers: There are three separate inventories. These are the European Inventory of Existing Commercial Chemical Substances (EINECS), the European List of Notified Chemical Substances (ELINCS) and the No-Longer Polymers (NLP) list. EINECS numbers start with 2 or 3. ELINCS numbers start with 4. NLP numbers start with 5. Substances without EC numbers were assigned "list numbers" in order to facilitate REACH submissions. They are solely of administrative, and not of regulatory relevance. The list numbers start with 6, 7, 8 or 9.			

NATIONAL INVENTORIES					
INGREDIENT NAME	U.S.A. (TSCA)	Canada (DSL/NDSL)	Australia (AIIC)	China (IECSC)	Other inventories
Medium-Chain Triglycerides	Listed	DSL listed	Listed	Listed	Glycerides, mixed decanoyl and octanoyl: AIIC, AREC, DSL, ECL, EINECS, IECSC, NZIoC, PICCS, REACH, TCSI, TSCA, TDCA/ Ester of decanoic acid, octanoic acid and glycerol: VNECI (or) Glycerides, C8-10: AIIC, DSL, EINECS, NZIoC, PICCS, REACH, TCSI, AREC, ECL, IECSC (or) Medium-chain triglycerides: TDCA)
U.S.A.: Substances that are regulated under other federal regulations, including food additives, drug, cosmetics... are not subject to TSCA regulation. "Naturally occurring substances" are not subject to Premanufacture Notice reporting.					
Canada: Substances not listed on DSL or NDSL can be imported in Canada in quantities not exceeding 100 kg per 12-month period and per importer. Substances listed on NDSL only can be imported in Canada in quantities not exceeding 1000 kg per 12-month period and per importer. Please contact us if you go beyond these volumes. In addition, substances not listed in DSL or NDSL, but listed in the "in-commerce list" can be freely used in Products Regulated Under the Food and Drugs Act (F&DA). In addition, substances considered as "Natural" according Health Canada's definition are exempted from New Substances regulation.					
Australia: The Australian Inventory of Chemical Substances (AICS) has been replaced by the Australian Inventory of Industrial Chemicals (AIIC) since July 2020. Chemicals listed on the AIIC are available for industrial use in Australia; however, importers must register with Australian authorities before importing the chemical in Australia. Some chemicals require specific information to be provided to Australian authorities. Naturally occurring chemicals are exempted from AIIC listing; importers may have to submit a declaration. Chemicals not listed on the AIIC must be assessed before importation.					

REACH REGULATION (REGISTRATION, EVALUATION, AUTHORISATION AND RESTRICTION OF CHEMICALS)		
INGREDIENT NAME	Status of the product	Status per substance
Medium-Chain Triglycerides	Exempted	Substances intended to be used in food or feedingstuffs in accordance with Regulation (EC) No 178/2002 are exempted from the main provisions on registration, evaluation and authorization, under REACH

Liability clause

The information contained in this document is based on our knowledge of the related product(s) at the date indicated herein, and is provided in good faith. Notwithstanding the foregoing, no guarantee is made in respect of the product's(s') properties or efficacy, or the continued exactitude and completeness of the information herein. No contractual tie is formed by the provision of this information. This document does not relieve the user from conducting all tests and verifications to ensure the product's(s') suitability for each intended use. Nothing herein shall be construed as a recommendation or licence to use any information that does or may conflict with any intellectual property. We make no representation or warranty, express or implied, that use of this information will not infringe any intellectual property of Gattefossé or any third party. The user assumes all risks and liability incurred if a product is used other than for the purpose designated by Gattefossé. This statement does not relieve the user from verifying its conformity with all current applicable laws and regulations, and the user shall remain solely liable for ensuring its continued conformity therewith.
