

Emulium® Delta MB

Velvet touch

People make our name

Highly versatile and powerful emulsifier

Formulating cosmetic preparations often means combining materials that aren't easily compatible while creating a strong sensorial identity.

Imagine now an emulsifier that would not only help solve all kind of formulating problems but would also bring a soft and velvety feel.

Strong emulsifying and stabilizing properties

Formulation trouble-shooter

Velvet touch

[O/W emulsifier
HLB 9]

Answering formulator's needs for a high performance emulsifier, Gattefossé has developed an original combination of nonionic molecules, offering exceptional emulsifying power, high sensoriality and unique and polyvalent claims:

Excellent stability

- Stable within a broad pH range, from acidic to basic (pH 3 to 13)

Strong sensory added-value

- Softness and comfort during and after application

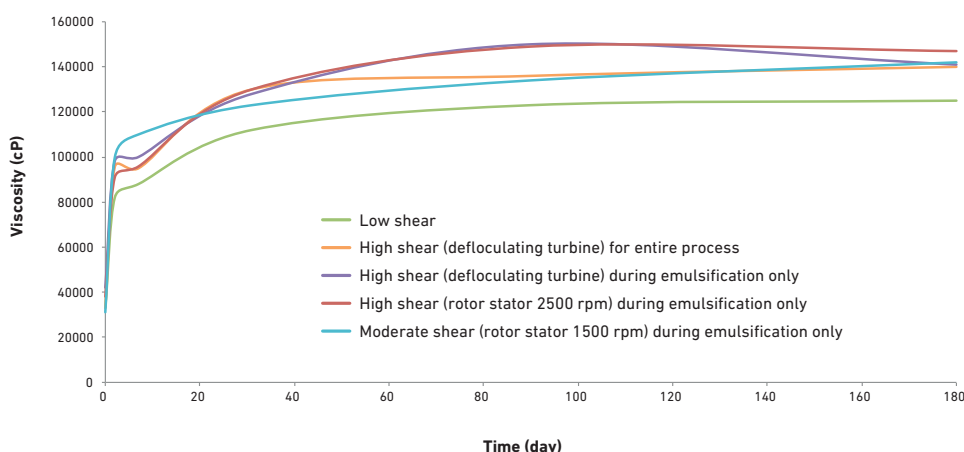

Exceptional compatibility

- Compatible with a wide range of oils and active ingredients

Easy to formulate

- Process independent
- Adapted to one-pot process

EMULIUM® DELTA MB, *the emulsifier of choice when formulation constraints must not compromise the feel of the finished product.*

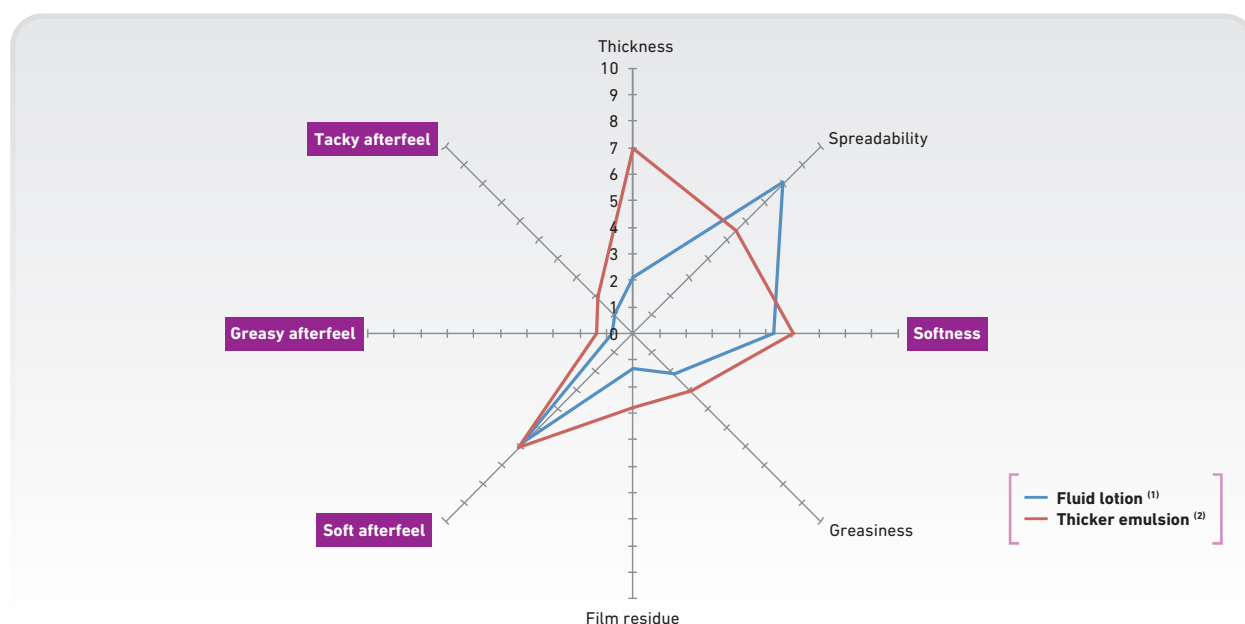

[PROCESS
INDEPENDENT]

Same viscosity is obtained whatever technique is used (low or high shear, defloculating turbine or rotor stator).

Strong sensorial identity

High softness during and after application

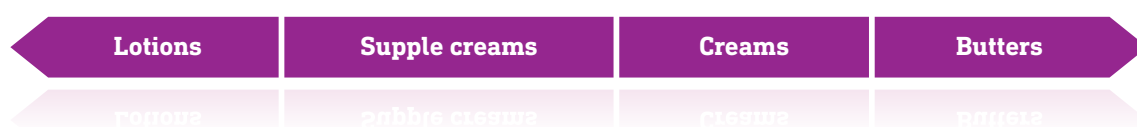

Emulium® Delta MB shows an exceptional sensory profile, providing extreme softness, not only during the application but also after complete absorption. It leaves the skin with a very soft sensation, non-oily and truly non tacky.

Whatever the viscosity or texture, Emulium® Delta MB's strong sensorial identity is easily recognizable.

Viscosity	Lotions	Butters
Sensorial criteria	More fluid	Higher viscosity
	Thinner texture	Extreme creaminess
	Light creamy feel	Presence and comfort during application
	Easier spreading	Playtime
	Thinner residual film	Higher film residue
	Soft, velvety feel	
	Non greasy, non tacky after-feel	

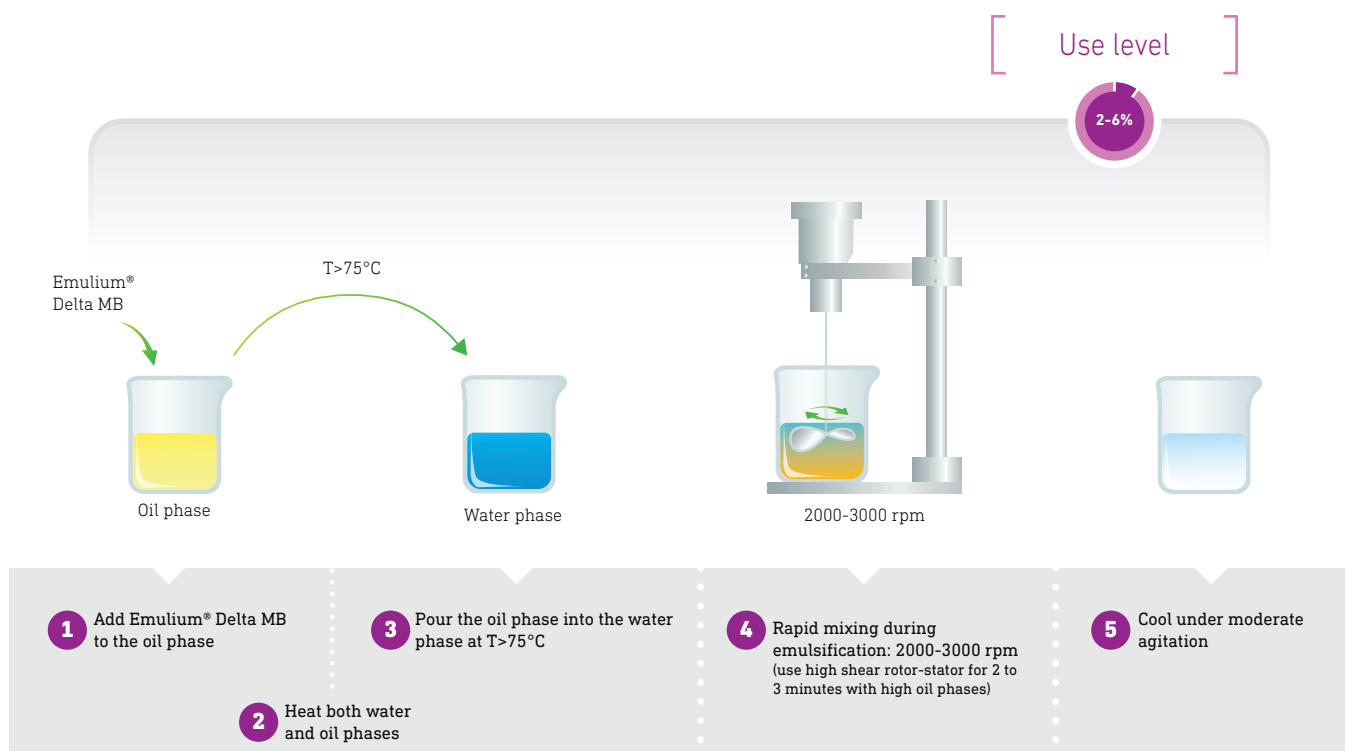

Wide range of textures

⁽¹⁾ 1666-2.04
⁽²⁾ SC2128/B

Easy to formulate

Direct emulsification / Hot process

Exceptional compatibility

Oils	All types of oils up to 40%
Gelling agents	All types of gelling agents
Consistency agents	Recommended associations: Cetyl Alcohol or Cetearyl Alcohol (increased stability at 50°C)
Actives	Acid pH: AHAs, H_2O_2 Basic pH: Ammonium thioglycolate, NaOH Sensitive actives: DHA, vitamins, zinc pidolate, urea, NaPCA, Aluminium salts
UV filters	Mineral and organic
Alcohol	Up to 20%
Electrolytes	Up to 1% NaCl, 0.5% MgSO_4

Emulium® Delta MB

is an O/W sensory emulsifier that is characterized by its soft and velvet skin feel, allowing the creation of rich and luxurious textures.

Easy to use and extremely flexible, Emulium® Delta MB is compatible with most cosmetic ingredients, and is often used to incorporate difficult-to-use actives. It is an ideal candidate for formulations that are tricky to develop.

- Allows the emulsification of numerous tricky active ingredients
- Brings a strong sensory added-value: softness and comfort guaranteed

Characteristics

- O/W emulsifier (pellet form)
- Non ionic
- HLB 9

Applications

- Skin care: all skin types, for day and night applications
- Toiletries: anti-perspirants, hair bleaching
- Hair care: straighteners, conditioners, hydrogen peroxide creams
- Sun care: protective sunscreens, self tanners
- Make up: blush, alphabet creams

Sensoriality

- All kind of textures, from lotion to butter
- Soft, velvety feel
- Non greasy, non tacky after feel

Use level

2-6%

Use pH

3-13

INCI: Cetyl Alcohol (and) Glyceryl Stearate (and) PEG-75 Stearate (and) Ceteth-20 (and) Steareth-20

Worldwide approval for cosmetic applications

Listed on IECIC (Inventory of Existing Cosmetic Ingredients in China) 2015

As a user of palm oil and palm kernel oil derivatives, Gattefossé is sensitive to the environmental impact of palm tree growing and participates in the development of sustainable cultivation, providing its customers with environmentally responsible ingredients.

Gattefossé is a proactive member of RSPO (Roundtable on Sustainable Palm Oil) since 2010. In 2013, Gattefossé achieved the RSPO supply chain certification. Since then, Gattefossé offers products certified RSPO Segregated, and more recently, products certified RSPO Mass Balance. Emulium® Delta MB is certified Mass Balance.
