GATTEFOSSÉ

Press Release

Lyon, France - January, 11th, 2022

Gattefossé is launching its new Inspiration 2022 collection, *Escapism*, on the theme of escape, an invitation to dream of new destinations while rethinking the way of traveling.

Gattefossé's applications laboratory has developed practical and innovative formulas to accompany travelers in their new adventures.

"As its name suggests, Inspiration is a collection of formulas created, to inspire formulators by highlighting Gattefossé ingredients used out of their comfort zone."

Each year, we focus on one or more themes illustrated with new formulations. The idea is above all for our lab team members to let their imagination and creativity run free, to propose original and surprising formulas while respecting our charter in terms of naturality and sustainability."

Flora Bollon, Product Marketing Leader Texture & Applications at Gattefossé

Travel-friendly cosmetics

Solid cosmetics are not only trends, since they are part of a global movement to protect the planet by reducing the overall impact on the environment, including beauty.

Solid cosmetics have many advantages and their characteristics are travel-friendly. They are easily transportable, smaller and lighter than conventional versions. They are also multifunctional, with a size that can be adapted to the trip duration and leave no waste behind.

Escapism, a kit with 5 new formulas

This year, Gattefossé developed 5 new formulations: *Magma Mask*, a mask in the form of surprising, solid black pellets; *Everything Balm*, a multifunctional anhydrous balm texture; *Softer Skin Stick*, a scrub in a stick format for convenient use; *Scalp & Body Scrub*, an exfoliating wax that rinses easily; and finally *Slide n' Foam*, a solid face cleanser that invites to experience a new application process.

Focus on the *Magma Mask*

Magma Mask is a 98% natural origin mask in the form of surprising solid black pellets. One pellet represents a unique dose of a product, making it possible to take only the needed quantity.

First, crush a pellet of the *Magma Mask* in your palm, then take a bit of the *Everything Balm*, (or alternatively hot water). Mix to form a thick black mask to spread directly onto the skin and rinse after 10 minutes.

To find out more and discover the entire collection, [visit our dedicated webpage](#) and/or meet our team in Paris at **Cosmet'Agora stand 90-91** (January 11-12, 2022).

About Gattefossé

[Gattefossé](#) is a French company who develops, manufactures and sells specialty ingredients for the personal care and pharmaceutical industries. Specialist in lipid chemistry and plant extraction, the group offers recognized expertise in formulation using its 4 application laboratories.

Gattefossé markets its products in more than 60 countries through 12 affiliated companies and a network of agents and distributors which provide solid technical support to its customers: 75% of its turnover is achieved outside France.

The company remains a family-run, independent business since its creation in 1880.
