

1. DEFINITION

DEFINITION
Oily phase gelling agent. Mixture of: Propylene glycol monolaurate (type I) EP/NF, Ethylcellulose EP/NF and Propylene Glycol Isostearate.

DENOMINATION
INCI NAME* (PCPC - International Nomenclature of Cosmetic Ingredients) Propylene Glycol Laurate Ethylcellulose Propylene Glycol Isostearate
UNII (Unique Ingredient Identifier) USP/FDA Substance Registration System (SRS) 40KT317HGP 7Z8S9VYZ4B Not listed
*INCI name is given for information only. This ingredient is a pharmaceutical excipient. It must be used according to applicable regulations. Gattefossé accepts no responsibility for the use of this product in applications other than those recommended.

2. FIELD OF USE

FIELD OF USE
This ingredient must be used according to appropriate regulations
Pharmaceutical ingredient (topical and/or rectal/vaginal routes)

3. MANUFACTURING PROCESS AND COMPOSITION

MANUFACTURING PROCESS
Simple physical mixture of 3 components: : propylene glycol monolaurate, ethylcellulose and propylene glycol isostearate.

COMPOSITION	
Full Labeling (Key letters system)	
A ₁ ≥ 75.0 ; 50.0 ≤ A ₂ < 75.0 ; 25.0 ≤ B < 50.0 ; 10.0 ≤ C < 25.0 ; 5.0 ≤ D < 10.0 ; 1.0 ≤ E < 5.0 ; 0.1 ≤ F < 1.0 ; G < 0.1	
Propylene Glycol Laurate	A ≥ 50.0%
Ethylcellulose	5.0% ≤ D < 10.0%
Propylene Glycol Isostearate	5.0% ≤ D < 10.0%
Other constituents (i.e. incidental ingredients)	
None

6. SPECIFIC PHARMACEUTICAL REGULATIONS

REGULATORY STATUS OF THE INGREDIENT FOR BORDER-LINE APPLICATIONS AUSTRALIA (TGA) - Australian Register of Therapeutic Goods Ingredients			
Status	Ingredient Name	Use	Restrictions
Approved	Propylene glycol monolaurate	Available for use as an Active Ingredient in: Biologicals, Prescription Medicines Available for use as an Excipient Ingredient in: Biologicals, Devices, Export Only, Listed Medicines, Over the Counter, Prescription Medicine	/
Approved	Ethylcellulose	Available for use as an Active Ingredient in: Biologicals, Prescription Medicines Available for use as an Excipient Ingredient in: Biologicals, Devices, Export Only, Listed Medicines, Over the Counter, Prescription Medicines Not available as an Equivalent Ingredient in any application	/
Approved	Propylene glycol Isostearate	Available for use as an Active Ingredient in: Biologicals, Prescription Medicines Available for use as an Excipient Ingredient in: Biologicals, Devices, Export Only, Listed Medicines, Over the Counter, Prescription Medicines Not available as an Equivalent Ingredient in any application	Only for use in topical medicines for dermal application in listed medicines
AUSTRALIA: Therapeutic goods are divided into 'medicines' and 'medical devices'. Some 'medicines' are limited to prescription-only while others are available without a prescription. Non-prescription medicines may be 'complementary medicines' (i.e. vitamin, mineral, herbal, aromatherapy, and homoeopathic products) or 'OTC medicines' and may be 'listed' (i.e. Sunscreens SPF4 and >4) or 'registered' in the ARTG.

REGULATORY STATUS OF THE INGREDIENT FOR BORDER-LINE APPLICATIONS NATURAL HEALTH PRODUCTS – CANADA NHPID		
Status	NHPID name	Route of administration/ Restrictions
Approved non-medicinal ingredient	Propylene glycol laurate Ethyl cellulose Propylene glycol isostearate	For topical use only (due to ethyl cellulose). Up to 25 mg/kg body weight daily as propylene glycol for propylene glycol derivatives unless other wise specified.
Under the Natural Health Products Regulations, which came into effect on January 1, 2004, natural health products (NHPs) are defined as: Probiotics; Herbal remedies; Vitamins and minerals; Homeopathic medicines; Traditional medicines such as traditional Chinese medicines; Other products like amino acids and essential fatty acids. The Natural Health Products Ingredients Database (NHPID) lists acceptable medicinal and non-medicinal ingredients used in Natural Health Products.		

7. SAFETY ASSESSMENT

SAFETY STUDIES PERFORMED BY GATTEFOSSE					
Study type/ duration	Route	Species	Test article	Results/Conclusions	Reference
Acute irritation (OECD 404)	Dermal	Rabbit	EMULFREE P Pure	Not classified	Gattefossé data Ti 301/02-0590 Aug 2002
Acute irritation (OECD 405)	Ocular	Rabbit	EMULFREE P Pure	Not classified	Gattefossé data Ti 302/02-0590 Aug 2002
Acute irritation (HET CAM protocol)	Ocular	In vitro	EMULFREE P Pure	Very well tolerated Practically nonirritant	Gattefossé data 00581RD3 June 2000
Acute irritation (Single Patch test)	Dermal	Human	EMULFREE P Pure	Non irritant Very well tolerated	Gattefossé data 00581RD3 June 2000
Local tolerance (Repeated application)	Dermal	In vitro elbow fold	EMULFREE P 50% in mineral oil	No clinical signs of intolerance. Very good skin compatibility.	Gattefossé data IL109/02.0590 April 2002
Sensitisation (Repeated insult patch test (EPS))	Dermal	Human	EMULFREE P Pure	No dermal sensitisation. Very well tolerated.	Gattefossé data 10101-1 May 2001
Phototoxicity (EU/COLIPA protocol)	Dermal	In vitro	EMULFREE P Pure	No phototoxic effect	Gattefossé data PTC 01.769 Nov 2001
Acute toxicity (OECD 401)	Oral	Rat	EMULFREE P Pure	LD50 _(oral) > 2009 mg/kg	Gattefossé data 935/110 Sept 2000
Ames test (OECD 471)	Oral	Rat	EMULFREE P Pure	Negative. Non mutagenic.	Gattefossé data 935/119 May 2001

CIR COMPENDIUM (Cosmetic Ingredient Review) (http://www.cir-safety.org)			
Denomination	Reference	Maximum “as used” concentration	Conclusions
Propylene glycol mono and diesters	IJT, 18 (Suppl. 2) 35-52, 1999	Up to 50 %	Based on the available animal and clinical data included in this report, the CIR Expert Panel concludes that Propylene Glycol laurate is as cosmetic ingredients in the present practices of use.
Propylene glycol laurate	Final amended report Jan. 2015		The CIR Expert Panel concluded that the following ingredients are safe in the present practices of use and concentration described in this safety assessment in cosmetics when formulated to be nonirritating.
Propylene glycol isostearate	Final amended report Jan. 2015		The CIR Expert Panel concluded that the following ingredients are safe in the present practices of use and concentration described in this safety assessment in cosmetics when formulated to be nonirritating.
Ethylcellulose	Final amended report Mar, 2009		The CIR Expert Panel concluded that Ethylcellulose is safe as cosmetic ingredients in the practices of use and concentration given in this safety assessment

U.S.A.: Substances that are regulated under other federal regulations, including food additives, drug, cosmetics... are not subject to TSCA regulation. "Naturally occurring substances" are not subject to Premanufacture Notice reporting. Canada: Substances not listed on DSL or NDSL can be imported in Canada in quantities not exceeding 100 kg per 12-month period and per importer. Substances listed on NDSL only can be imported in Canada in quantities not exceeding 1000 kg per 12-month period and per importer. Please contact us if you go beyond these volumes. In addition, substances not listed in DSL or NDSL, but listed in the "in-commerce list" can be freely used in Products Regulated Under the Food and Drugs Act (F&DA). In addition, substances considered as "Natural" according to Health Canada's definition are exempted from New Substances regulation. Australia: The Australian Inventory of Chemical Substances (AICS) has been replaced by the Australian Inventory of Industrial Chemicals (AIIC) since July 2020. Chemicals listed on the AIIC are available for industrial use in Australia; however, importers must register with Australian authorities before importing the chemical in Australia. Some chemicals require specific information to be provided to Australian authorities. Naturally occurring chemicals are exempted from AIIC listing; importers may have to submit a declaration. Chemicals not listed on the AIIC must be assessed before importation.

REACH REGULATION (REGISTRATION, EVALUATION, AUTHORISATION AND RESTRICTION OF CHEMICALS)		
	Status of the product	Status per substance
Propylene Glycol Laurate Ethylcellulose Propylene Glycol Isostearate	Exempted	Substances intended to be used in medicinal products (human and/or veterinary use) are exempted from the main provisions on registration, evaluation and authorization, under REACH regulation.

9. HISTORY OF USE

9.1. Pharmaceutical applications

Refer to the [HISTORY OF USE](#) document.

9.1.1. Other references

HANDBOOK OF PHARMACEUTICAL EXCIPIENTS (Current edition by R. C. Rowe, P.J. Sheskey, W. G. Cook, M. E Fenton)			
Denomination	Functional Category	Regulatory status	Safety
Propylene glycol monolaurate	Emollient, emulsifying agent, nonionic surfactant, oleaginous vehicle, penetration enhancer, solubilizing agent	Included in the FDA Inactive Ingredient Database. Included in nonparenteral medicines licensed in the UK. Included in the Canadian Natural Health Products Ingredients Database	Propylene glycol monolaurate is generally regarded as safe for use in pharmaceutical and cosmetic formulations in the present practice of use. Prolonged or frequently repeated skin contact may cause allergic reactions in hypersensitive individuals exposed to this product, and it may also cause eye irritation.
Ethylcellulose	Coating agent, microencapsulating agent, tablet and capsule binder, tablet and capsule diluent, taste-masking agent, viscosity-increasing agent	GRAS listed. Included in the FDA Inactive Ingredients Database. Included in nonparenteral medicines licensed in the UK? Included in the substances Added to Food (Formerly EAFUS) list compiled by the FDA. Accepted for use as a food additive in Europe. Included in the Canadian Natural Health products Ingredients Database	Ethylcellulose is generally regarded as a nontoxic, nonallergenic and nonirritating material.

Liability clause

The information contained in this document is based on our knowledge of the related product(s) at the date indicated herein, and is provided in good faith. Notwithstanding the foregoing, no guarantee is made in respect of the product's(s') properties or efficacy, or the continued exactitude and completeness of the information herein. No contractual tie is formed by the provision of this information. This document does not relieve the user from conducting all tests and verifications to ensure the product's(s') suitability for each intended use. Nothing herein shall be construed as a recommendation or licence to use any information that does or may conflict with any intellectual property. We make no representation or warranty, express or implied, that use of this information will not infringe any intellectual property of Gattefossé or any third party. The user assumes all risks and liability incurred if a product is used other than for the purpose designated by Gattefossé. This statement does not relieve the user from verifying its conformity with all current applicable laws and regulations, and the user shall remain solely liable for ensuring its continued conformity therewith.
